

Quinte Smart Homes

Don't let theft and vandalism cost you time and money

Theft on construction sites can cost \$5,000 or more in delays. Protect your assets with a leader in commercial security.

A security plan that works as hard as you

4 Security Cameras

Equipped with analytics and AI, these cameras support face, human, and vehicle detection in low light and have built-in speakers for crime-detering broadcasts.

1 Bridge

8-channel bridge connects up to 8 cameras, transforming cameras into alarm zones with cloud security and video monitoring.

Stop False Alarms

AI cameras stop false alarms like animals walking by. Control and monitor several locations from one app, anytime, anywhere, and receive detailed incident reports.

24/7 Monitoring

Our operators in Ontario review and assesses your footage and notify authorities, letting you rest at night while stopping crime.

Protect your bottom line and construction site

Construction projects vary in scope and timelines. That's why we provide flexible pricing. Enjoy complimentary installation, setup, and removal of loaned cameras and equipment with our adaptable monitoring plans, starting with a minimum commitment of just two months. Or, design a custom package specifically built to meet your needs.
